QUICK GUIDE TO NICHOLAS POND TRAIL

DESCRIPTION: Nicholas Pond Trail offers a pleasant excursion off Nicholas Flat Trail to Nicholas Pond. The eastern end of the trail follows a creek to the pond, a spring-fed water body with a dramatic cliff face at its edge. The pond is bordered by large oaks along the south side, which continue on along the more shaded western segment of the trail, connecting to Nicholas Meadow Trail and on to Nicholas Ridge Trail.

DIRECTIONS: The trail can be accessed from Decker School Road via Nicholas Flat Trail. From the PCH, head east on Decker Road. After 2.4 miles, make a slight left onto Decker School Road. Continue on the road around a series of turns until the end. There is one ADA parking space at trailhead and limited street parking.

SAFETY FIRST

In case of EMERGENCY dial 911.

For non-emergencies on County trails call the Los Angeles County Sheriff's Parks Bureau Dispatch at (800) 834-0064.

HAZARDS ON THE TRAIL

Rattlesnakes occasionally sun themselves in the middle of the trail. If encountered, keep your distance and allow space for the snake to retreat.

Poison oak can be identified by groups of 3 leaves going up the branch. It's best avoided by staying on the trail and wearing long pants and long-sleeved shirts to prevent contact with skin.

Ticks are most often found in shaded, grassy areas off the beaten path. Stick to established trails and wear long pants to avoid contact. Check for ticks frequently, especially the scalp, waist and other dark places where they can hide.

SHARE THE TRAIL

When trail conditions require a right of way for safe passage, ***equestrian users have the primary right of way, hikers next and then mountain bikers****. When trail conditions allow and when there is width to safely pass, common courtesy should prevail for all users. Stand to one side of the trail and allow them to pass. When in a group, avoid blocking the trail.* ***Mountain bikers yield to all trail users.*** *Anticipate other trail users as you ride around corners. Mountain bikers traveling downhill must yield to all users, including other mountain bikers, headed uphill. In general, make each pass a safe and courteous one.*
